

OH, who has retired as the city's administrator. Throughout her distinguished tenure, she was a model of a dedicated public servant.

Colleen began working for the city of Bowling Green in 1967 as a bookkeeper, monitoring maintenance costs of city vehicles. Working her way up through the municipal structure, she became the city's municipal administrator in 1989. As a testament to her talent and commitment to fiscal responsibility, the city's books held no operating debt upon her retirement.

In addition to leaving Bowling Green on sound financial grounds, Colleen may take pride in her retirement in knowing she played a key leadership role in the development and promotion of her community. As assistant municipal administrator and later as municipal administrator, she helped revitalize the downtown area and aggressively assisted in economic development. She was involved in recruiting commercial and industrial business and in negotiating an enterprise zone agreement between business, industry, and government. Ever mindful that a community is more than simply a collection of business enterprises, Colleen worked to ensure Bowling Green remained the warm and pleasant place to live and visit it has always been. Her efforts have grown trees, parks, and playgrounds which people have enjoyed and will for generations to come. She helped make Bowling Green a true slice of Middle America.

More than a municipal employee, Colleen expanded the boundaries of public servant by committing her time and talent to various volunteer groups and charities: the American Cancer Society, Muscular Dystrophy Association, and Arthritis Foundation to name a few. For her selfless efforts, Colleen was honored and recognized by many civic and community organizations. The recognition culminated in 1996, when she received an honorary alumnus degree from Bowling Green State University for a lifetime of achievement and civic-mindedness.

The English poet/philosopher John Donne wrote that "no man is an island, entire of itself" by which he meant that every person touches every other living being. Colleen Smith is an example of this sentiment. Although retiring from public service, I am certain she will carry on in the ideal of Donne's philosophy for many years to come. I know my colleagues join me in thanking Colleen Smith for 30 years of dedicated service, and wish her an enriching retirement.

**CONGRATULATIONS TO THE LADY EAGLES BASKETBALL TEAM OF WEST VALLEY HIGH SCHOOL**

**HON. GEORGE R. NETHERCUTT, JR.**

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Friday, March 21, 1997*

Mr. NETHERCUTT. Mr. Speaker, today I want to congratulate the girls basketball team of West Valley High School. On March 15, the Lady Eagles won the Washington State AA High School basketball championship, handily defeating the Prosser High School girls squad 61 to 44. The Lady Eagles won 18 of their 22 games in the regular season, defeating many tough teams.

Under the leadership of Coach Mark Kuipers and assistant coaches Steve Lawler, Shelli Totten, Robyn Schumacher, and Renee Nilles, the girls squad demonstrated athletic skill, teamwork, and persistence, qualities which helped them play good basketball and win the State championship.

Players for the State championship team are Abby Monasmith, Angela Kaltas, Sherry Shollenberger, Cindy Simpson, Gabby McClintock, Chantelle Frost, Dawn Salfer, Kiesha Sowers, Stacey Roberts, Danna Vermeers, Heather Huffman, and Alisha Pedey. Jill Nihoul, Heather Sweet, and Megan Lawk served as the team's managers.

Principal Cleve Penberthy, Athletic Director Wayne McKnight, and residents of the West Valley district should be proud of the Lady Eagles' success. I join them in saluting the players, managers, and coaches for their accomplishment.

I hope the Lady Eagles' success will encourage others to pursue their goals, recognizing that to succeed, players need to practice and work together as a team. While necessary to their triumph, athletic skill alone was not enough. I hope that my neighbors in eastern Washington—and Americans across the Nation—will learn from their success, that they will not let the odds discourage them, they will remain confident in their abilities and work together to reach their goals.

Skill, teamwork, and persistence allowed the Lady Eagles to triumph on the basketball court. And these qualities will enable students across the country to succeed, whether in an athletic arena or in any other endeavor they would like to pursue.

IN HONOR OF NORMAN M. COLE, JR.

**HON. THOMAS M. DAVIS**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, March 21, 1997*

Mr. DAVIS of Virginia. Mr. Speaker, it is with deep sadness that I rise today to announce the passing of Mr. Norman M. Cole, Jr., whose contributions to the northern Virginia area, are beyond measure. Norman died suddenly in a skiing accident on February 2, 1997, and it is hard for me, and the entire Fairfax community to believe that such a vibrant and dynamic citizen is gone.

I would like to take this opportunity to inform others of what an outstanding activist and advisor Norman was. As past chairman of the Fairfax County Board of Supervisors, I had the opportunity to work with Norman and I viewed him as one of the fathers of modern Fairfax. He served on my commission to study the county's budget in 1992 and his insight helped the county to achieve a balance without a tax increase. He was a visionary who saw the big picture in the way government operates, and he was able to put together the coalitions to get things done. Norman was former chairman of Virginia's State Water Control Board and an activist who frequently spoke out in defense of measures to protect northern Virginia's water supply. While chairman, Norman initiated the State standards for treating sewage before it was released into the Potomac River.

No one had more to do with protecting the Potomac River and shaping the region's water supply. Many of Norman's other brilliant ideas

have been adopted by the Virginia General Assembly. Norman also served as a member of the Occoquan Sewage Authority and most recently was involved in assessing Dominion's semiconductor's plans to build a \$1.7 billion computer chip plant in northern Virginia. He also was a fighter for such causes as conserving energy and decreasing government spending.

Norman will be missed by all the residents of northern Virginia that were among the lucky to know him, and my deepest condolences goes to his wife, Janet, and his family. Norman will be a friend I will never forget, and he will be missed by the community he served. A recent editorial in the Washington Post clearly defines Mr. Cole's contributions to the region.

IN HONOR OF NORMAN M. COLE, JR.

[From the Washington Post, Feb. 9, 1997]

The Potomac River is far cleaner today than it was 30 years ago, and the credit for this transformation goes to one man whose expertise, persistence and political skills forced the issue on officialdom until he got results. Norman Cole Jr., who died in a skiing accident last weekend at the age of 63, was the undisputed champion of efforts to achieve what presidents and other elected leaders all talked about but never seemed ready to do: rid the Potomac of serious pollution. Poll anyone who ever got involved in the revival of the river and they point to Mr. Cole, the caring man who knew more than anyone else about water quality.

Mr. Cole served in a variety of state and local assignments pertinent to the longtime health of the region. He did stints as technical and policy adviser to Govs. John Dalton and Linwood Holton on energy and water pollution abatement. The government of Fairfax County leaned on Mr. Cole constantly for guidance, and civic groups sought him out for help, which he generously provided. Mr. Cole also was principal author of the 1971 Occoquan Watershed Policy, which prompted creation of a sewage authority there as well as of a world-class treatment plant.

Mr. Cole's expertise extended to global issues. He was a nuclear engineer who was a leader in the inspection and rectification of problems involving the reactor after the Three Mile Island accident in Pennsylvania. He served on the Ukrainian international jury reviewing proposals to stabilize Chernobyl Unit No. 4 after the disaster there. Mr. Cole assisted the Russian government in defueling its nuclear-powered submarines.

Mr. Cole was the man who was always testing the waters—literally as well as in his elaborate charts brightened by his famous multicolored underliners. When the Potomac started passing his tests, he would organize group swims. When the attention spans of government officials got short, he would nag and educate them until they at least listened some more. He did what he did out of a deep concern for the safety and pleasure of his own children and out of a love of the outdoor life and a special affection for the Potomac. His legacy is a unique treasure.

IN MEMORY OF A GREAT POLKA BAND LEADER

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Friday, March 21, 1997*

Mr. KUCINICH. Mr. Speaker, I rise to honor the memory of Joe Toriskie, a Garfield Heights
